### Important notes

This Additional Information Guide (**Guide**) contains important information which should be read before deciding to invest in the Fund listed below. The information in this Guide forms part of the Product Disclosure Statement (**PDS**) for the Fund listed below. You should consider these documents together before making a decision about the Fund. The information provided in this Guide is general information only and does not take account of your personal financial situation or needs. You should obtain financial advice tailored to your personal circumstances. The information in this Guide is current as at the issue date but may change from time to time. Unless otherwise defined in this Guide, defined terms have the same meaning as used in the PDS.

FUND	ARSN	APIR	PDS Dated
Ausbil Australian Emerging Leaders Fund	089 995 442	AAP0104AU	5 August 2016

# 1. How we invest your money

## About Ausbil

Ausbil's structure embraces four criteria important in the selection of an investment manager:

- solid ownership structure providing strong financial integrity;
- key management incentivised by way of ownership in the business;
- proven investment processes and performance track record in core areas of expertise with a strong focus on risk management skills; and
- an experienced and stable team of investment managers.

The investment philosophy and corporate goals of Ausbil have been formulated to provide a disciplined investment management style that is primarily active, but which also incorporates quantitative inputs and is risk aware. Rather than focusing only on growth or value investing, Ausbil's investment processes allows it to exploit the inefficiencies across the entire market, at all stages of the cycle and across all market conditions. Whilst primarily fundamental research-based, Ausbil's process also encompasses quantitative elements to ensure we are not dominated by an active thematic-biased style. Ausbil's investment process has been pioneered and successfully implemented over 20 years. Ausbil's investment process is summarised in the diagram below:

## Your investment decision

In making a decision it is important to consider the investment, its level of risk and diversification and how it relates to your investment goals and other investments you may hold. You should carefully read the PDS, including all the information in this Guide, and seek appropriate professional advice before you make your decision. Ausbil does not provide personal advice to any clients.

## Considering your investment goals

To meet your investment goals you should consider:

- your return expectations - this reflects the types of returns that you are seeking from an investment;
- your investment time horizon - which is based on the length of time you expect to hold an investment; and
- your risk tolerance - which refers to the extent of variation in the value of your investment and returns (if any) from your investment that you are willing to bear over the course of your investment time horizon.

## Standard risk measure

The standard risk measure is based on industry guidance to allow you to compare investment options that are expected to deliver a similar number of negative annual returns over any 20 year period.

The standard risk measure is not a complete assessment of all forms of investment risk. For instance it does not detail what could be the size of the negative return or the potential for a positive return to be less than you may require to meet your objectives. Further, it does not take into account the impact of administration fees and tax on the likelihood of a negative return and should not be used to compare fees. You should still ensure you are comfortable with the risks and potential losses associated with your chosen investment option/s.

The following table is used to determine the risk label that applies to a fund:

Risk Band	Risk Label	Estimated number of negative annual returns over any 20 year period
1	Very low	Less than 0.5
2	Low	0.5 to less than 1
3	Low to medium	1 to less than 2
4	Medium	2 to less than 3
5	Medium to high	3 to less than 4
6	High	4 to less than 5
7	Very high	6 to greater

The Responsible Entity has developed a methodology consistent with the guiding principles outlined by the Financial Services Council and the underlying assumptions are structured to reflect a conservative bias i.e. in favour of overstating risk. The methodology applies a set of relevant capital market assumptions (returns, volatility, correlation) to calculate the forward-looking return distribution for the investment strategy of a fund. The probability of a negative return in any one year is derived and then multiplied by 20 to achieve the estimated number of negative returns over any 20 year period. This number is compared to the table above to identify the Risk Band and Risk Label applicable to a fund.

# 2. How the Ausbil Australian Emerging Leaders Fund works

## Applications into the Fund

Applications will be processed with an effective date being the date the Administrator receives both a valid Application Form, Client Identification Form (where required) and your application money in cleared funds.

The Application Form and Client Identification Form include details of the identification documentation that the Responsible Entity is required by law to collect from you before the Responsible Entity can issue units in the Fund to you.

Please note that Application Form and Client Identification Form for an initial investment are not accepted by fax or email due to legislative requirements. The forms must be mailed as originals to the Administrator, whose contact details are on page 1.

Ausbil retains absolute discretion to accept or reject any application in whole or in part. Specifically, if the Responsible Entity is unable to approve an application due to a lack of documentation or failure of verification procedures required by the Anti Money Laundering and Counter Terrorism Financing Act 2006 (Cth) (AML/CTF Act), your application will not be processed until these procedures are complete.

## Incomplete or rejected Application Forms

Under the Constitution, the Responsible Entity can accept or reject any application for units and are not required to give any reason or grounds for such a refusal. To ensure that your application is processed efficiently, you need to complete all sections of the Application Form and provide all required customer identity verification documents outlined in the applicable Client Identification Form and Application Form.

If your Application Form is not completed to the Responsible Entity's satisfaction and the Responsible Entity is not able to proceed with your request the Responsible Entity may:

- attempt to contact you; and/or
- hold your application monies in a non-interest bearing trust account until the Responsible Entity receives the required information.

Monies will be held for a maximum period of 30 days commencing on the day the Responsible Entity receives the monies. After this period your funds will be returned to the source of payment. If your Application Form is subsequently completed to the Responsible Entity's satisfaction prior to the expiration of the 30 day period and:

- before 2.30pm on any Business Day the monies held will be used to apply for units which will be issued at the application price next calculated for that Business Day; or
- after 2.30pm on any Business Day or on a non-Business Day, the monies held will be used to apply for units which will be issued at the application price calculated for the next Business Day.

## Identification and verification requirements

The AML/CTF Act requires the collection and verification of specific information from investors, including information in relation to the underlying beneficial owners of an investor or potential investor and the source of any payment. As well as completing the Application Form, you may also be required to provide documentation to verify your identity. The actual documentation required will depend on what type of investor you are (for example, individual, sole trader, superannuation fund, trust or Australian company). The required identification documents are outlined in the Client Identification Form.

Under relevant laws, the Responsible Entity may be required to ask you for additional identity verification documents and/or information about you or anyone acting on your behalf, either when the Responsible Entity is processing your investment request or at some stage after the Responsible Entity have issued units in the Fund, and may need to re-verify information previously provided. The Responsible Entity may pass any information it collects and holds about you or your investment to relevant government authorities. Further, under the AML/CTF Act, the Responsible Entity is required to disclose information about suspicious matters to regulatory and/or law enforcement agencies and may be prevented from informing you of such disclosure.

If the Responsible Entity does not receive all the required valid customer identity verification documents, or it is unable to verify your identity at any time, it may not be able to commence your investment or may not process any future withdrawal requests until it receives the required document(s). The Responsible Entity will contact you as soon as possible if it requires more information. Where a transaction is delayed, blocked, frozen or refused, the Responsible Entity is not liable for any loss you suffer (including consequential loss) as a result of compliance with the AML/CTF Act as it applies to the Fund.

## The Custodian and the Administrator

National Australia Bank's role as Custodian is limited to holding assets of the Fund. As the Administrator, National Australia Bank provides administration services in relation to the Fund, which includes keeping the register of unitholders, arranging for the issue and withdrawal of units and calculation of unit prices and fees. In accordance with the relevant agreements between the Responsible Entity and National Australia Bank, National Australia Bank has no supervisory role in relation to the operation of the Fund, and has no liability or responsibility to unitholders for any acts or omissions. The Custodian does not make investment decisions in respect of the assets held or manage those assets. The Responsible Entity will pay the Custodian a fee for acting as the Fund's custodian. This fee is not an additional fee to you and is included in the management costs described in the PDS.

## Transferring ownership

Transferring units may have tax implications and you should consult your taxation adviser before you arrange any transfer of units. The Responsible Entity may, in its discretion, refuse to register any transfer of units and is not required to give any reasons. Where the Responsible Entity refuses to register a transfer, it may withdraw those units in accordance with the Constitution. For further information about how you may transfer your units, please contact us.

## Restrictions on withdrawals

Redemption monies will only be paid to your nominated Australian bank account. Cheques and third party payments are not available. A transaction confirmation will be sent within 5 Business Days of when the withdrawal proceeds have been paid.

The Responsible Entity may, in accordance with the Constitution and the Corporations Act, suspend withdrawals when the Responsible Entity believes it is in the best interests of unitholders as a whole, including where any of the following occur:

- the Responsible Entity has taken all reasonable steps to realise sufficient Fund assets to satisfy withdrawal requests and is unable to do so; and
- the Responsible Entity is unable to calculate the withdrawal price or to fairly determine the NAV due to one or more circumstances outside its control.

In addition, if the Responsible Entity receives withdrawal requests in respect of any withdrawal date in relation to more than 20% of the units in the Fund, the Responsible Entity may stagger the withdrawals in accordance with the Constitution.

If the Fund is illiquid, withdrawals from the Fund will only be possible if the Responsible Entity makes a withdrawal offer in accordance with the Corporations Act. As at the date of this PDS the Fund is liquid.

For further details on the circumstances where the Responsible Entity may delay or suspend withdrawals, please contact the Responsible Entity or refer to the Constitution, a copy of which is available free of charge by contacting the Responsible Entity.

Under the Funds' Constitution, Ausbil has the right to compulsorily redeem units in the Fund in certain other circumstances, including where holding the units is in breach of law.

### Transactions via mFund

While a Fund is admitted as an mFund product under the ASX Operating Rules, investors will be able to buy and sell and redeem units in the Fund through mFund. mFund uses CHESS, allowing automated application and redemption of units in the Fund through your ASX broker or your financial adviser who uses a stockbroking service on your behalf (**broker**). Holdings in these mFunds are held electronically and are linked to a Holder Identification Number (**HIN**) in the same way as other investments transacted through ASX. However the mFund Settlement Service does not facilitate on-market buying and selling between investors. The mFund units settled through the mFund Settlement Service are issued and redeemed by the Responsible Entity of the Fund.

Your broker will process a buy order for units through CHESS. CHESS will confirm the order with your broker once it has been received and accepted by the Responsible Entity. Your payment will be passed through the CHESS daily batch settlement process. The Responsible Entity will price and allot new units to your HIN and CHESS will notify your broker of the unit price and units allotted. For more information about mFund visit the ASX website [www.asx.com.au/mfund](http://www.asx.com.au/mfund) or contact your broker.

### Instructions by fax

None of the Responsible Entity nor its duly appointed agents, including the Custodian and Administrator accepts any responsibility or liability for any loss caused as a result of fraud or errors in or non-receipt or illegibility of, any faxed communication or for any loss caused in respect of any action taken as a consequence of faxed instructions believed in good faith to have originated from properly authorised persons.

## 3. How unit prices are calculated

You will be issued units when you invest in the Fund. Each of these units represents an equal undivided interest in the Fund. As a result, each unit has a dollar value which is determined in accordance with the Constitution and are generally calculated each Business Day (**unit price**).

Under the Constitution, unit prices are calculated by dividing the NAV of the relevant class by the number of units in the relevant class on issue in the Fund. Application and withdrawal unit prices are then calculated by applying a buy or sell spread to the NAV unit price. The NAV of the Fund includes the assets (including income accumulated since the previous distribution) less any liabilities (including borrowings and expenses). The buy/sell spread is an estimate of the costs of buying and selling the underlying assets of the Fund.

The unit price will change as the market value of assets in the Fund rises or falls. All unit prices are calculated to six (6) decimal places.

The Responsible Entity has adopted a Unit Pricing Discretions Policy that sets out policies and procedures when exercising discretions under the Constitution. For the purpose of calculating the NAV of the Fund, the Responsible Entity will rely on financial data provided by the Fund's brokers and/or independent third party pricing services. The Responsible Entity may also use and rely on industry standard financial models in pricing any of the Fund's securities or other assets. These methods are consistent with ordinary commercial practice for valuing units in the Fund.

A copy of our Unit Pricing Discretions Policy is available at [www.ausbil.com.au](http://www.ausbil.com.au)

## 4. Additional information about distributions

The Responsible Entity may pay interim distributions throughout the year where the Responsible Entity considers it appropriate, for example, where there is a large withdrawal it may distribute income and net realised capital gains before processing the withdrawal so that remaining unitholders are treated fairly. Prior notice of interim distributions will not be provided.

The size of the distribution will vary depending on the factors that influence the performance of the Fund (such as security selection, interest rates and market conditions) and may not be paid at all. Distributions may include a part return of capital. Details will be provided in your tax statement.

Distributions are calculated in accordance with the Constitution. Undistributed gains accrue in the unit price of the Fund during the relevant distribution period. This means that if an investment is made just before the end of a distribution period, you may receive some of the investment back immediately as income. The Fund's unit price will usually fall following a distribution because the income and net realised capital gains accumulated during the distribution period have been distributed.

## 5. Risks of managed investment schemes

In addition to the risks outlined in section 4 of the PDS, 'Risks of managed investment schemes', other significant risks of investing in the Fund are:

### Fund risk

Fund risks include potential termination of the Fund, a change in the Fund's characteristics (such as distribution frequency, change in fees and expenses etc.), replacement of the Responsible Entity or laws that affect managed investment schemes may change. There is also a risk that investing in the Fund may give different results than investing directly because of the income or capital gains or losses accrued in the Fund and the consequences of applications and redemptions by other unitholders.

### Manager risk

The risk that Ausbil will not achieve the Fund's stated investment objective or deliver returns that compare favourably to alternative investment options. Many factors can negatively impact Ausbil's ability to generate acceptable returns, including loss of key staff.

### Withdrawal risk

To meet withdrawal requests or to raise cash to pursue other investment opportunities, the Responsible Entity may be forced to sell securities at an unfavourable time and/or under unfavourable conditions, which may adversely affect the Fund.

If a situation occurs where the assets that the Fund invests in are no longer able to be readily bought and sold, or market events reduce the liquidity of a security or asset class,

there is a risk that the generally applicable timeframe of five business days for meeting withdrawal requests may not be able to be met. This is because it may take longer to sell these types of investments at an acceptable price. In this case, withdrawals from the Fund may take significantly longer than the generally applicable timeframe.

The maximum timeframe in which we, as responsible entity, have to meet a withdrawal request is set out in the constitution of the Fund. Where the Fund is not liquid (as defined in the Corporations Act), you may only withdraw when we make an offer to withdraw to all investors, as required by the Corporations Act. Please refer to 'Restrictions on withdrawals' on page 3 of this Guide for further information about a unitholder's ability to withdraw when the Fund is liquid, including the timeframes, and a unitholder's ability to withdraw if the Fund is not liquid.

## 6. Investor communication

As a unitholder in the Fund, you will receive the following reports:

### Confirmations

You will receive confirmations of all your application(s) and withdrawal(s).

### Distribution statement

You will receive a distribution statement for each period that the Fund makes a distribution to unitholders.

### Tax and annual statements

Taxation statements will be provided to you annually for the year ending 30 June. You will also be provided with an annual periodic statement which contains your transaction history for the year ending 30 June.

### Audited financial statements

Audited financial statements of the Fund are issued annually for the year ending 30 June. They will be prepared in accordance with Accounting Standards applicable to general financial statements in Australia to the extent that the Fund is required to comply with those standards by the Corporations Act or under the Constitution. The audited financial statements are made available to unitholders at [www.ausbil.com.au](http://www.ausbil.com.au). A hard copy may be requested free of charge by contacting the Responsible Entity. Audited financial statements will not be mailed to unitholders unless specifically requested.

The Fund is currently a disclosing entity as defined by the Corporations Act. As a 'disclosing entity' (generally this is where the Fund has 100 investors or more) the Fund is subject to regular reporting and disclosure obligations. In addition, you have the right to receive the following documents at no charge:

- the annual financial report most recently lodged with ASIC;
- any half-year financial report lodged with ASIC by the Fund after the lodgement of the annual report most recently lodged with ASIC and before the date of the PDS; and
- any continuous disclosure notices given by the Fund after the lodgement of the annual report most recently lodged with ASIC and before the date of the PDS.

Copies of documents lodged with ASIC in relation to the Fund are able to be obtained from, or inspected at, an ASIC office. All continuous disclosure information is available at [www.ausbil.com.au](http://www.ausbil.com.au)

### Keeping us informed

Our records about you are important. Please inform the Administrator in writing of any change to the personal details that you have given us. This may be a new postal address, email address, or a change of name or new bank account details. When requesting a change of personal details please complete the Change of Details Form or provide:

- your account number;
- the full name(s) in which your investment is/are held;
- the change(s) you are requesting;
- a daytime telephone number;
- email address; and
- ensure the request is signed by the appropriate signatories.

Some changes may also require additional documentation, such as a change of name request. If you wish to change your nominated bank account to which withdrawal payments are made, you will be required to complete the Change of Details Form or the relevant sections of the Additional Investment Form and the relevant Client Identification Form, and send the original form and documents to the Administrator.

## 7. How the Fund is governed

The Fund is governed by the Constitution. The Constitution (in addition to the Corporations Act and general law) provides an operational framework for the ongoing management of the Fund. It also provides for the Responsible Entity's powers, duties and obligations in respect of the Fund, the limits to our liability and our right to be indemnified for proper administration of the Fund.

### The Constitution

The Constitution contains the rules relating to a number of issues including:

- unitholder rights;
- the process by which units are issued and may be withdrawn;
- the calculation and distribution of income;
- the investment powers of the Responsible Entity;
- the Responsible Entity's right to claim indemnity from the Fund and charge fees and expenses to the Fund;
- the creation of other classes of units; and
- the termination of the Fund.

The Constitution also contains provisions designed to limit your liability to the amount invested in the Fund. However, you should be aware that the effectiveness of such a limitation is yet to be conclusively determined by the courts.

A copy of the Constitution, which has been lodged with ASIC, is available free of charge by contacting the Responsible Entity.

## Termination

The Constitution, together with the Corporations Act, governs how and when the Fund may be terminated. The Responsible Entity may terminate the Fund at any time by written notice to unitholders. On termination, a unitholder is entitled to a share of the net proceeds of the realisation of the assets in proportion to the number of units the unitholder held at the time of termination.

## Unitholder meetings

The conduct of unitholder meetings and unitholders' rights to requisition, attend and vote at those meetings are subject to the Corporations Act and (to the extent applicable) the Constitution.

## Compliance plan and compliance committee

The Fund has a compliance plan which has been lodged with ASIC (**Compliance Plan**). It sets out measures that the Responsible Entity is to apply in operating the Fund to ensure compliance with the Constitution. A compliance committee has been appointed to monitor compliance by the Responsible Entity with the Constitution and Compliance Plan. A copy of the Compliance Plan is available free of charge on request by contacting the Responsible Entity.

# 8. Fees and other costs

## Performance fee – worked dollar example

The following tables provide a dollar fee example based on an investor with a \$50,000 investment in the Fund. The example assumes no other applications or withdrawals have been made. Please note that this is just an example and should not be taken as an indication or guarantee of future performance, nor an indication of the performance fee that may be charged in the future.

The Fund's performance exceeds the Performance Fee Hurdle	How and when paid
<p><b>For 1 December we assume:</b> the Fund's gross performance return for the day was 0.50%; the Performance Fee Hurdle for the day was 0.25%; and the Fund's value at the end of the day was \$50,000.</p> <p><b>Fund outperformance for the day:</b> = Fund Performance minus Performance Fee Hurdle for the day. = 0.50% - 0.25% = 0.25%</p> <p><b>Performance fee amount for the day:</b> = performance fee multiplied by the Fund outperformance for the day. = (15.375% x 0.25%) x \$50,000 = \$19.22</p>	<p>Accrued in the Fund's unit price for the day and deducted directly from the Fund after the end of the month.</p>

The Fund's performance is below the Performance Fee Hurdle	How and when paid
<p><b>For 1 December we assume:</b> the Fund's gross performance return for the day was 0.15%; the Performance Fee Hurdle for the day was 0.20%; and the Fund's value at the end of the day was \$50,000.</p> <p><b>Fund under performance for the day</b> = Fund Performance minus Performance Fee Hurdle for the day. = 0.15% - 0.20% = -0.05%</p>	<p>A negative performance fee amount will not be accrued in the unit price.</p> <p>The negative Performance will need to offset by future positive performance before any performance fee becomes accrued and payable.</p>

### Can fees be different for different unitholders?

For wholesale investors the Responsible Entity may, in its discretion and, in accordance with relevant ASIC policy and the Corporations Act, negotiate and agree a rebate or waiver of part of the management fee to a person who acquires an interest in the Fund in response to an offer made to them as a wholesale client within the meaning of section 761G of the Corporations Act. Any fee rebate or waiver is subject to the Responsible Entity determining that the giving of the rebate or waiver satisfies, or continues to satisfy, the requirements of ASIC policy and the Corporations Act.

### Increases to fees and other costs

The Constitution permits higher management fees to be charged than those stated in the PDS.

The maximum management fee under the constitution is 0.85% pa (plus GST) of the gross asset value. The maximum performance fee under the constitution is 15% (plus GST) of the Fund's performance over the Performance Fee Hurdle (composite made up of 70% S&P/ASX Midcap 50 Accumulation Index and 30% S&P/ASX Small Ordinaries Accumulation Index including a hurdle of 0.85% pa) multiplied by the Fund's gross asset value.

The Responsible Entity may, at its discretion and without your consent, increase the management fee up to the maximum amount as set out in the Constitution. However, you will be given 30 days' written notice in advance of any increase in fees and costs charged by the Fund.

### Indirect (or alternative form) remuneration

The Responsible Entity may provide benefits to other financial services intermediaries where the law permits. If the Responsible Entity does, it will provide these benefits from our own resources so that they are not an additional cost to the Fund or its unitholders.

The Responsible Entity may also sponsor professional development days and training. If permitted by law, the Responsible Entity may pay rebates, based on the amount of funds under management or operating expenses, to IDPS operators, dealer groups and financial advisers.

### Product access payments

The Responsible Entity may enter into arrangements to pay administration fees to IDPS operators in connection with the listing of this Fund on their investment menus. This fee is paid by the Responsible Entity and not by the Fund. It is not charged out of the assets of the Fund and is not an additional charge to unitholders.

## 9. Taxation considerations

There are tax implications when investing, withdrawing and receiving income from the Fund. The Responsible Entity cannot give tax advice and the Responsible Entity recommends that you consult your professional tax adviser as the tax implications for the Fund can impact unitholders differently. What follows is a general outline of some key tax considerations for Australian resident unitholders. This information is based on our current interpretation of the relevant taxation laws. As such, unitholders should not place reliance on this as a basis for making their decision as to whether to invest.

Income earned by the Fund, whether distributed or reinvested, can form part of the assessable income for

unitholders in the year of entitlement or allocation.

Further, the timing of when the Fund's income is brought to account for tax purposes may be different to when amounts are distributed to you, so that you may be required to pay tax on income that has not yet been or may not be distributed to you.

For each year ending 30 June the Responsible Entity will send to you the details of assessable income, foreign income, tax credits and any other relevant tax information to include in your tax return.

### Applications and withdrawals

If you acquire units part way through a distribution period, that amount of accumulated income which is included in the unit price for the units acquired will eventually be distributed to you as income. Depending on your tax circumstances, this could result in you receiving assessable income, and on disposal of units, generating a capital loss of a similar amount. However, the capital loss cannot be offset against that income - it can only be offset against your realised capital gains.

If you withdraw units part way through a distribution period, the value of accumulated income is included in your withdrawal price. The Responsible Entity will advise you what part (if any) of the proceeds on withdrawal reflect your share in the net income of the Fund and therefore is assessable income for tax purposes. The balance reflects the capital proceeds on disposal and may, dependent upon your tax circumstances, be subject to the capital gains tax (CGT) provisions.

Your assessable income for each year may include net realised capital gains (ie after offsetting capital losses). This will include capital gains made upon withdrawing units from the Fund.

Individuals, trusts and complying superannuation entities may be eligible for CGT concessions in relation to capital gains made with respect to units which are held for at least 12 months.

If you hold your units on revenue account, gains and losses will be taxable as ordinary income or allowed as a deduction, as the case may be, and will not qualify for the CGT discount.

### Foreign taxes and foreign tax compliance

Australian residents are required to include in their assessable income their share of any foreign taxes paid by the Fund. Australian residents will normally be entitled to a tax offset for foreign taxes paid by the Fund.

The Responsible Entity believes that the Fund will be required to comply with the US Foreign Account Tax Compliance Act (**FATCA**). The Responsible Entity will require you to provide certain information about yourself so as to enable compliance with FATCA obligations.

### GST

The application for and withdrawal of units in the Fund and receipt of distributions will not be subject to GST. However, GST is payable on our fees and certain reimbursement of expenses. The Fund may be able to claim input tax credits and/or RITCs of at least 55% of the GST incurred.

Unless otherwise stated, all fees quoted in this Guide and the PDS are quoted on a GST inclusive basis and net of any applicable RITCs.

## 10. Additional general information

### Consents

National Australia Bank Limited (ABN 12 004 044 937) (**National Australia Bank**) is the Custodian and Administrator for the Fund. National Australia Bank makes no statement in this PDS and has not authorised or caused the issue of it. National Australia Bank has given and not withdrawn its consent to be named in this PDS before the date of this PDS. Investments of the Fund do not represent investments in, deposits with or other liabilities of, National Australia Bank or any other member of the National Australia Bank group of companies (**NAB Group**). Neither National Australia Bank, nor any other member of NAB Group, in any way stands behind the capital value, nor does it guarantee the performance of the investment or the underlying assets of the Fund, or provide a guarantee or assurance in respect of the obligations of the Responsible Entity or its related entities.

New York Life Insurance Company has given and has not withdrawn its consent to its name appearing in the PDS of the Fund and to references and statements in the PDS concerning New York Life Insurance Company in the form and context in which they are included. Other than the consent provided, New York Life Insurance Company does not take any responsibility for any other part of the PDS and has not authorised or caused the issue of the PDS.

New York Life Investment Management Holdings LLC has given and has not withdrawn its consent to its name appearing in the PDS of the Fund and to references and statements in the PDS concerning New York Life Investment Management Holdings LLC in the form and context in which it is included. Other than the consent provided, New York Life Investment Management Holdings LLC does not take any responsibility for any other part of the PDS and has not authorised or caused the issue of the PDS.

### Privacy

The Responsible Entity must comply with the Privacy Act. This Act generally regulates the collection, storage, quality, use and disclosure of personal information. The Responsible Entity may collect personal information from investors to provide its products and services. The Corporations Act and AML/CTF Act require the Responsible Entity to collect some personal information about you. The Responsible Entity will need to collect personal information from you in order to process your investment and provide services to you. We may also need to disclose your personal information collected to third party service providers in order to carry out these activities. If you do not want us to use your personal information for direct marketing purposes please contact the Privacy Officer at the address set out below.

We aim to ensure that the personal information the Responsible Entity retains about you is accurate, complete and up-to-date. To assist the Responsible Entity with this, please contact the Responsible Entity if any of the details you have provided change. If you have concerns about the completeness or accuracy of the information the Responsible Entity has about you, it will take steps to correct it. In accordance with the Responsible Entity's Privacy Policy, in most cases, investors also have rights to access their personal information.

The Responsible Entity may disclose your personal information to anyone you have authorised or any adviser,

consultant or dealer group advising you or acting on your behalf, government departments or agencies as well as any related entities of the Responsible Entity and anyone acting on its and/or the adviser/consultant/dealer group's behalf such as external service suppliers who supply administrative, financial or other services to assist the Responsible Entity and/or the adviser/consultant/ dealer group in providing financial services.

If we are not able to collect all the personal information we require, we may not be able to assess your application for the investment product or manage the product. The Responsible Entity may be required to transfer your personal information to entities located outside of Australia where it may not receive the level of protection afforded under Australian law. By completing the Application Form you consent to your personal information being transferred overseas for these purposes. Please note that if you provide personal information to the Responsible Entity about another person, you warrant that you are authorised by that person to do so and that you have informed that person of the information in this Privacy section.

Please contact the Responsible Entity's Investor Services Team on 1800 287 245 (toll free) if you want to change or correct personal details. It is important that you contact us because until you do so the Responsible Entity will assume that by investing in the Fund, you have consented to our using your personal information as indicated above. A copy of the Responsible Entity's Privacy Policy is available at [www.ausbil.com.au](http://www.ausbil.com.au) or may be obtained from the Ausbil Privacy Officer.

Further information on how the Responsible Entity handles personal and sensitive information can be found in the Privacy Policy. The Privacy Policy also contains information about how you can access and correct the information about you held by the Responsible Entity as well as how complaints may be made and how the complaint will be dealt with by it. If you are investing in the Fund via an IDPS, please be aware that the Responsible Entity does not collect or hold personal information in connection with an investment in the Fund.

If you have further questions about privacy, please write to us or contact us at:

## Indirect Investors

The Responsible Entity has authorised the use of the PDS as disclosure to investors and prospective investors of an IDPS or IDPS-like scheme (known commonly as a master trust or wrap account). These investors are referred to as Indirect Investors. Indirect Investors in the Fund do not themselves become unitholders in the Fund, and accordingly have no rights as a unitholder. The offer document for your IDPS or IDPS-like scheme should have further details. If you are an Indirect Investor, generally the IDPS or IDPS-like scheme operator acquires the rights of a unitholder. Your rights and liabilities will be governed by the terms of the relevant IDPS or IDPS-like scheme disclosure document, which you should read carefully prior to directing the relevant operator to invest in the Fund.

Indirect Investors complete application forms for the IDPS or IDPS-like scheme, not the Fund, and receive reports from their operator. Enquiries should be directed to that operator or your financial adviser. Minimum investment and withdrawal requirements may not always be relevant to Indirect Investors because the IDPS or IDPS-like scheme operator may invest on behalf of a number of Indirect Investors. Also, the tax information in this Guide and the PDS does not specifically cater for Indirect Investors.

## Related Parties

The Responsible Entity is owned by its employees and indirectly by New York Life Investment Management Holdings LLC, a wholly-owned subsidiary of New York Life Insurance Company (**New York Life**). For these purposes, a related party includes certain entities and individuals that have a close relationship with the Responsible Entity, including, but not limited to New York Life itself, other subsidiaries of New York Life and other funds operated or managed by any other member of the New York Life group of companies.

The Responsible Entity may from time to time use the services of related parties (including, but not limited to, investment management and administration) and pay commercial rates for these services. The Responsible Entity may also enter into financial or other transactions with related parties in relation to the assets of the Fund and such arrangements will be based on arm's length commercial terms or as otherwise permissible under the law.

In the course of managing the Fund the Responsible Entity may come across conflicts in relation to its duties to the Fund, related funds and its own interests. The Responsible Entity has internal policies and procedures in place to manage all conflict of interest appropriately. These policies and procedures will be reviewed on a regular basis and may change from time to time. In addition to complying with these policies and procedures, all conflicts will be resolved in a fair and reasonable manner, in accordance with the relevant law and ASIC requirements.

# 11. How to apply

## Steps

### 1. Read PDS and this Guide

Before completing the Application Form and the Client Identification Form please ensure you have read the PDS together with this Guide.
