Tax Information Form

Please complete all sections in **BLOCK** letters, using a black pen. If you make an error while completing this form, do not use correction fluid. Cross out your mistakes and initial your changes.

1. Why do you need to complete this form?

The Foreign Account Tax Compliance Act (FATCA) and Common Reporting Standard (CRS) are regulatory requirements that aim to deter tax evasion by US and other foreign taxpayers. Under the Australian legislation implementing FATCA and CRS, Financial Institutions are required to collect information about an Account Holder's residence for tax purposes and in case of an entity Account Holder its FATCA and CRS classification and to report this information as well (as information relating to the Account Holder's investment in a fund) to the Australian Taxation Office (ATO). The ATO might in turn exchange this information with the IRS and other tax authorities of other CRS partner jurisdictions with which a CRS agreement is in place. For more information, visit www.ato.gov.au.

If you are unsure of any of the answers, please contact a legal or accounting professional.

2. What if more than one person is applying?

HELP

Tell me about tax residence

You can be a resident of more than one jurisdiction for tax purposes. The determination of a person's tax residence is based on the tax laws of any relevant jurisdiction. The domestic tax laws of any relevant jurisdiction define the conditions under which an individual has to be treated as fiscally resident and consequently is subject to full tax liability. In general, an individual should be treated as resident in any jurisdiction in which the individual is subject to tax by reason of the individual's domicile, residence, or a similar criterion. Special circumstances may cause you to be resident in more than one jurisdiction. For the US, tax residency can be a result of citizenship or residency (incl. Green Card holders and residency under the substantial presence test).

HELP

What is a TIN?

This is short for Taxpayer Identification Number, is a unique combination of letters or numbers, however defined, assigned by a jurisdiction to its tax residents and used to identify them for purposes of administering the tax laws of such jurisdiction (or the functional equivalent of such a number). In Australia, the equivalent is the tax file number (TFN). For the US, it could for example be a US Social Security Number, a US Individual Taxpayer Identification Number or a US Employer Identification Number. In other jurisdictions, it may have a different name. Further details of acceptable TINs or a functional equivalent can be found on the OECD Automatic Exchange of Information portal.

HELP

Controlling persons

The term "Controlling Person" (under CRS and FATCA) means the natural persons who exercise control over an entity. For an Entity that is a legal person, control over an Entity is generally exercised by the natural person(s) who ultimately has a controlling ownership interest in the Entity. A controlling ownership interest depends on the ownership structure of the legal person and may be identified on the basis of a threshold, e.g. including only persons owning more than a certain percentage of the Entity. Where no natural person(s) exercises control through ownership interests, the Controlling Person(s) of the Entity will be the natural person(s) who exercises control of the Entity through other means. Where no natural person(s) is identified as exercising control of the Entity, the Controlling Person(s) of the Entity will be the natural person(s) who holds the position of senior managing official.

In the case of a trust, the term Controlling Persons means the settlor(s), the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, and any other natural person(s) exercising ultimate effective control over the trust. The settlor(s), the trustee(s), the protector(s) (if any), and the beneficiary(ies) or class(es) of beneficiaries, must always be treated as Controlling Persons of a trust, regardless of whether or not any of them exercises control over the trust. In the case of a legal arrangement other than a trust, Controlling Person(s) means persons in equivalent or similar positions.

- For companies, use 25% as a touchstone – if a person holds 25% of more of the issued capital or voting rights, best to list them.
- For trusts (other than discretionary trusts), law requires that you list all beneficiaries, and also requires that you drill down through the chain of control or ownership to find the natural persons that ultimately control the trust.
- Where no natural persons exercise control through ownership, consider who might exercise control through other means – directors and perhaps senior managing officials

If any of its Controlling Persons is a Reportable Person, the account will be reported as a Reportable Account.

Exempt Beneficial Owner (FATCA-relevant only)

The term "Exempt Beneficial Owner" means an entity that qualifies for such status based on relevant US Treasury Regulations or an applicable Model 1 or 2 IGA.

- Custodial Institution;
- Investment Entity;

Foreign Account Tax Compliance Act (FATCA)

The term "FATCA" stands for Foreign Account Tax Compliance Act. The FATCA provisions were enacted into U.S. law as part of the Hiring Incentives to Restore Employment (HIRE) Act on 18 March 2010. Based on FATCA, Foreign Financial Institutions are required to identify U.S. Accounts and report them, directly or indirectly through their domestic tax authorities, to the U.S. Internal Revenue Service (IRS). Foreign Financial Institutions and their clients that do not comply with the FATCA requirements are subject to a 30 percent withholding tax on payments from U.S. Securities.

Passive Income

Subject to certain limitations based on commercial operations (e.g. for specified dealers), "Passive Income" (under CRS and FATCA) would generally be considered to include the portion of gross income that consists of:

- Rents and royalties;
- Annuities;
- The excess of gains over losses from the sale or exchange of Financial Assets that gives rise to the passive income described above;

Professionally Managed Investment Entity

The term "Professionally Managed Investment Entity" (under CRS and FATCA) means an Entity (under FATCA: a non-US Entity) that:

- Is Professionally Managed; and
- The Entity's gross income attributable to investing, reinvesting, or trading in Financial Assets equals or exceeds 50% of the Entity's gross income during the shorter of (i) the three three-year period ending on 31 December of the year preceding the year in which the determination is made; or (ii) the period during which the Entity has been in existence.

Although meeting the above requirements, Entities might be exempted from the Professionally Managed Investment Entity definition based on a specific exemption under the laws of their jurisdiction of residence.

An Entity is considered to be Professionally Managed if another Financial Institution performs, either directly or through another service provider, any of the following activities or operations on behalf of the managed Entity: (i) trading in financial instruments; (ii) individual or collective portfolio management; or (iii) otherwise investing, administering, or managing funds, money, or Financial Assets. However, an Entity is not Professionally Managed if the managing Financial Institution does not have discretionary authority to manage the Entity's assets (in whole or part). Where an Entity is managed by a mix of Financial Institutions and other persons, the Entity is considered to be Professionally Managed.

The term "Reportable Account" means an account held by:

- One or more Reportable Persons; or
- A Passive NFE or a Professionally Managed Investment Entity with one or more Controlling Persons that is a Reportable Person.

Tax Residence

The determination of a person's tax residence is based on the tax laws of any relevant jurisdictions. The domestic tax laws of any relevant jurisdictions define the conditions under which an Entity has to be treated as fiscally resident and consequently is subject to full tax liability. In general, an Entity should be treated as tax resident in any jurisdiction in which he/she is subject to tax by reason of its domicile, residence, place of management or incorporation, or any other criterion of a similar nature, and not only from sources in that jurisdiction. Dual resident Entities may rely on the tiebreaker rules contained in tax conventions (if applicable) to solve cases of double residence for determining their residence for tax purposes.

Under CRS, special rules apply to:

- Fiscally transparent Entities (i.e. partnerships, limited liability partnerships or similar legal arrangements that have no residence for tax purposes), which are resident for CRS purposes in the jurisdiction in which their place of effective management or control is situated;
- Trusts that are Financial Institutions, which are resident for CRS purposes in the residence of their trustee(s), unless they are tax resident under the laws of any jurisdiction that has implemented CRS and report all the information required to be reported pursuant to the CRS with respect to the Reportable Account they maintain to the tax authorities of such jurisdiction;

- Trusts that are NFEs, which do not have a residence for CRS purposes, unless they are tax resident under the laws of any jurisdiction; and
- Branches, which are resident for CRS purposes in the jurisdiction of Tax Residence of the headquarter Entity of which they are a branch.

The information above is of a general nature and is not intended as advice in any particular case. If you have any questions on how to determine your tax residence status, please contact your tax adviser or relevant tax authorities. The fund/Management Company does not provide legal or tax advice.

U.S. resident for tax purposes

An individual is considered a U.S. resident for U.S. tax purposes if an individual meets the substantial physical presence test.
