'The Fund primarily invests in a portfolio of ASX listed or about to be listed, Australian securities (long and short) that are generally chosen from the S&P/ASX 200 Index'

## Investment objective

The Fund aims to outperform the S&P/ASX 200 Accumulation Index over the long term. There is no guarantee that this objective will be achieved.

## Key features

- The Fund primarily invests in a portfolio of ASX listed or about to be listed, Australian securities (long and short) that are generally chosen from the S&P/ASX 200 Index.
- The Fund may invest in companies listed on international exchanges (long and short), including Australian companies listed overseas. The Fund may also invest in exchange traded derivatives and cash or cash equivalents.
- The Fund does not leverage by borrowing cash.
- Short selling may be used to expand the range of available investment opportunities and achieve returns when share prices are expected to go down. Exchange traded derivatives may be used for managing risk.

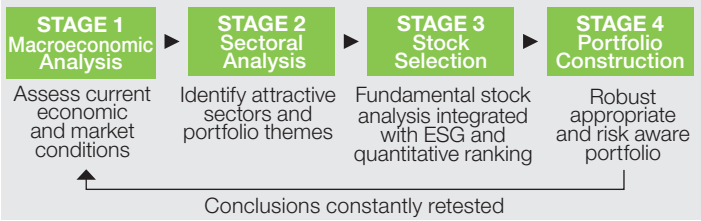

## Key benefits

- **Exposure to long and short positions in companies**: access to a portfolio of long and short positions in large and mid-capitalised companies that individual investors may not be able to invest in directly on their own.
- **Diversification**: the potential to diversify an investment portfolio.
- **Experienced team**: access to Ausbil's highly experienced investment management team with a proven track record.

Some of the key risks associated with the Fund may include market, security, liquidity, derivatives, credit, currency, smaller companies and concentration risk. Please refer to the Product Disclosure Statement and Additional Information Guide for risk details and further risks associated with the Fund.

## Investment style

Ausbil employs a four stage process to provide the framework for portfolio construction consistent with its investment philosophy. The process is summarised in the diagram below:
