'The Fund provides exposure to an actively managed portfolio, predominantly made up of listed Australian equities, which are primarily chosen from S&P/ASX 300 Index'

Investment objective

To achieve returns (before fees and taxes) in excess of the benchmark over the medium to long term with moderate tax effective income. There is no guarantee that this objective will be achieved.

Key features

- The Fund provides exposure to an actively managed portfolio, predominantly made up of listed Australian equities.
- Ausbil believes that active management of portfolios facilitates consistent and risk controlled outperformance. Rather than focusing only on growth or value investing, Ausbil's investment processes allow it to exploit the inefficiencies across the entire market, at all stages of the cycle and across all market conditions.

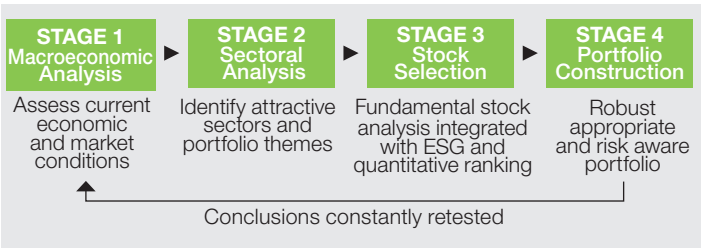

Key benefits

- **Exposure to large capitalised companies**: access to a portfolio of large capitalised companies that individual investors may not be able to invest in directly on their own.
- **Diversification**: the potential to diversify an investment portfolio.
- **Experienced team**: access to Ausbil's highly experienced investment management team with a proven track record.

Some of the key risks associated with the Fund may include market, security, liquidity and concentration risk. Please refer to the Product Disclosure Statement and Additional Information Guide for risk details and further risks associated with the Fund.

Investment style

Ausbil employs a four-stage process to provide the framework for portfolio construction consistent with its investment philosophy. The process is summarised in the diagram below:
